## FILLING A BULLDOG'S TEETH.

An Operation Which a Scranton Dentist Did With Hesitation, but Success.

A powerful and ferocious bulldog, owned by Dr. Ward of Scranton, Pa., enjoys the distinction of having a big gold filling in one of his incisors, and a good many citizens, who have caught a gleam of the gold in his mouth, wonder how the filling was done. Some think it was done through hypnotic influence by the doctor over the dog, while others insist that it was through the dog's implicit obedience to his master's command.

The bulldog's name is Gem. He is as ugly in appearance as a prize winner in a dog show. His nose is a mass of wrinkles, and his eyes have a wicked gleam for any one but his master and Mrs. Ward. His affection for them, however, knows no bounds. When Gem was discovered one day clashing his muzzle between his paws, rolling over and over on the floor and moaning, his month was examined, and it was found that there was a big cavity in one of the incisors. It was decided that a dentist should be consulted. The dentist found that it would be necessary to use a rubber dam, and he promised to fill the cavity provided Gem was etherized. This was done, and the operation was considered a successful one, although Gem evidently thought otherwise. Some time afterward the filling came out, and Gem's last state was worse than his first, for he refused to submit to another operation with ether. At the first sniff of the anesthetic he not only added a score of wrinkles to those already in his nose, but showed his teeth in so dangerous a way that the dentist dared not proceed. Dr. Ward insisted that he could make Gem stand on the table and have the teeth filled without wincing. The dentist was dubious about trusting his hand between the brute's jaws, but finally consented to try.

Gem was put on the table, and his master stood in front of him, kept his eyes fixed on Gem's and told him to open his mouth. Gem did so, and a rubber dam was soon adjusted in place. The dentist set to work with the instrument of torture called a bur, and one of Gem's ears went down in a threatening way, while the other remained cocked. The doctor held one finger raised and kept his eyes fixed on Gem's gaze. The attitude of Gem's ears proved a barometer of his sufferings when the bur touched a spot close to the nerve. When both ears went down, the dentist knew he had gone as far as dogs' nature would let him go. Gem's eyes never wandered from the doctor's in the 1½ hours the dentist was at work. Gem stood the final polishing, and when his master gave the word for him to get down from the table Gem danced with demonstrations of joy at his release. Since that day he has no trouble in masticating the biggest beef bone.—New York Sun.

## FAIR SAILING

through life for the person who keeps in health. With a torpid liver and the impure blood that follows it, you are an easy prey to all sorts of ailments. That "used-up" feeling is the first warning that your liver isn't doing its work.

That is the time to take Dr. Pierce's Golden Medical Discovery. As an appetizing, restorative tonic, to repel disease and build up the needed flesh and strength, there's nothing to equal it. It restores every organ into healthy action, purifies and enriches the blood, braces up the whole system, and restores health and vigor.

## DYSPEPSIA, CHRONIC DIARRHEA.

MISS SARAH GIBSON, of Sack, Bradford &amp; Co., Conn., writes: "I cannot speak too highly of your Family Medicine. For years I suffered with stomach trouble; it became so very bad I could not eat the slightest food without terrible distress. I began taking your medicine as you advised, and now can eat almost anything I want. I have taken about one dozen bottles of Dr. Pierce's Golden Medical Discovery. I also suffered for three years with chronic diarrhea; could get no help till I began the use of Dr. Pierce's Compound Extract of Smart-Weed; one-half dozen bottles cured me. I have also taken Dr. Pierce's Favorite Prescription for female weakness with good results."

## MILITARY SCIENCE.

Simplified Fortifications, Bicycles and Automatic Guns Are Modern Features.

It seems to be the general opinion among United States army officers that the development of military science in the immediate future will be in the direction of simplified fortifications, great utilization of the bicycle and the extensive use of some form of automatic gun. The modern army engineer sees little use in raising great mounds of earth, such as need to be done when hasty and even permanent works were needed. The bigger the earthwork the greater the mark for the enemy's guns. A hole in the ground has been the theoretical formula for fort building, and now that we possess fieldpieces with disappearing carriages it can be practically carried out. A gun that is capable of rising out of an innocent looking hole, pouring forth great volleys of death dealing bullets, and then sinking out of sight, leaving hardly a trace of its presence and certainly nothing to fire at, is formidable enough to invest the new theory with all needed logic. It would be to an enemy what the hollow road near Waterloo was to the cuirassiers of Napoleon.

The rifle of the future will be the automatic rifle. This is the conclusion of military men not only of this, but of other countries. General Wille, a German army expert on the subject of firearms, says decisively that it will ultimately be the rifle in general use by the armies of the world. Its particular point of merit is its capacity for doing away with the mechanical operation of loading, leaving the soldier free to attend to the business of firing, thus concentrating his attention on his opponent and rendering his aim surer.

As pointed out by General Wille, the force of the recoil of the automatic gun is employed for charging and closing the breech, and the firer has only to let off the shot in order again to load the weapon, so that the number of shots discharged without an effort is precisely the same as the total contents of the magazine. The only comparatively weak part of the automatic gun lies in its springs, but as they have been found after tests made in Austria to withstand the wear and tear of from 10,000 to 14,000 discharges, this does not count for much.—New York Sun.

## ROYAL HUNT TOMFOOLERY.

What It Costs to Maintain the Famous Sport.

A year or two ago, says the editor of London Truth, I took up the matter of the royal houndhunts, for I have always thought that anything with less of the redeeming feature of sport than to cart a tame deer to some spot, turn it out, hunt it with dogs, and, having hunted it down, put it back in its cage for another day's "sport" cannot well be conceived. When I was engaged in this crusade, I received many letters assuring me that the deer like being pursued by dogs, although how the animals conveyed their singular idea of pleasure to the writers of the letters was not explained to me. Now that the bishops have joined the crusade, we may hope that the cruel tomfoolery of this royal hunt will soon cease.

The country pays the costs. The salary of the master of the houndhunts (\$1,200 per annum) is always enjoyed by a nobleman, the occupant of the post changing with a change of ministers. Besides this there are salaries to huntsmen, whips and others, the purchase and keep of horses and hounds, etc. I should suppose that the total outlay must be about \$3,000 per annum. This is defrayed, it is true, from the civil list. But when the amount needed to maintain the sovereign was investigated in order to arrive at the total necessary, this expenditure was included in the estimate.

It is suggested by the bishops that the quarry should cease to be deer and should henceforward be a red herring. But the idea, as an attribute of majesty, of the sovereign keeping a lot of dogs to run after a red herring is childish.

## Grant Drilling the Home Militia.

Grant left West Point in midsummer and spent his furlough in Bethel and Georgetown. He was invited by the officers of the militia to drill the troops at "general muster," which took place at Russellville during August of 1844.

William Wilson and Peter Wamaw are two of the few witnesses living who remember the splendid occasion.

It impressed itself ineffaceably on young Grant's mind because it seemed wonderful, even revolutionary, to see a young lad such as Cadet Grant looked, ordering the pompous old officers about. "He looked very young, very slender and very pale."

"He was dressed in a long blue coat, with big epaulets and big brass buttons, and his trousers seemed to be white, though they may have been a light gray. He wore a cap and a red sash around his waist, and he rode his horse in fine style."

"I was particularly struck with his voice—that is, his way of using it. The old men barked out their commands. You couldn't tell what they said. Noise seemed to be their idea of command, but Grant's voice was clear and calm and cut across the parade ground with great precision. It was rather high in pitch, but it was trained. I could tell that, though I was only a boy."—Hamlin Garland in McClure's Magazine.

## The Circle County.

The oldest shaped county among the 8,000 which go to make up the separate divisions of the various states is Warren county, Tenn. It lies almost exactly in the geographical center of the state mentioned and is about as near a perfect circle as any division of land could possibly be. The circle would be perfect but for the fact that there is a short stretch of the northern boundary line which follows a small stream for a short distance. It is bounded by Cannon, DeKalb, Coffee, Grundy, Van Buren and White counties and is in no way remarkable except in shape.—St. Louis Republic.

## SOMETHING ABOUT BEETLES.

Their Strange Habits, Instincts and Means  
of Getting Food.

You are all familiar with the common  
black beetle known as the tumbler,  
and perhaps have seen it rolling a  
ball with its hind legs, pushing it back-  
ward. The ball contains the egg of the  
beetle, and the creature is taking it to  
a place of safety.

A green beetle spotted with white is  
called the tiger beetle. He is a clever  
fellow and very cunning in his manner  
of securing his prey. He will dig a hole  
a foot in depth and then crawl to the  
top and form himself into a bridge  
across the chasm, burying his head in  
such a manner as to appear like some-  
thing inanimate, but he will be on the  
alert for the unwary creature that  
makes an attempt to cross on his back.  
In an instant the bridge will give way  
and the prey will be precipitated into  
the hole. The beetle will follow and  
quickly dispatch the game, when he  
will return, reform the bridge and al-  
lure another victim.

Old fashioned furniture is often com-  
pletely ruined by the larvae of a beetle  
called the anobium. A peculiar sound  
like the ticking of a clock is made by  
these beetles when they call to each  
other, the noise being made by striking  
the jaws against their resting place, and  
often in old houses filled with old fur-  
niture the superstitious, when they hear  
this peculiar sound, imagine the place  
to be haunted.

Another beetle is found in dark cel-  
lars, where it thrives upon dust and  
trash. It is so difficult to exterminate it  
that it is looked upon as something un-  
canny, and the ignorant regard its pres-  
ence as an ill omen.

The sacred beetle of Egypt is not un-  
like our own common beetle, and the  
female lays her egg in the same way,  
wrapped in a substance which is to pro-  
tect it and furnish food. She rolls it up  
into a ball with her fore legs, sometimes  
carrying it a long distance upon her  
head; digs a hole in the earth, deposits  
her egg laden ball, covers it up, and  
leaves it to attain its perfect develop-  
ment.

The sexton beetle is a curious crea-  
ture. He has a thick body and powerful  
limbs and a most acute sense of smell.  
No sooner does a small animal die than  
the sexton gathers about the body and  
begin to put earth upon it. In a few  
hours the dead animal has been covered  
and the beetles have laid their eggs in  
the carcass, which is to nourish the  
larvae.

A remarkable creature is the bom-  
bardier beetle, and it is provided with  
a strange means of defense. It lives in  
a community under stones, and when  
disturbed discharges a fluid of a very  
penetrating odor, much like gas, which  
explodes as it comes in contact with the  
air and passes into vapor. Eighteen ex-  
plosions can be made in succession by  
one bombardier, and while these are  
being thrown off like a volley of artil-  
lery the beetle effects its escape. The  
fluid is like nitric acid to the taste. It  
causes a sharp pain if placed upon the  
tongue and leaves a yellowish stain.—  
Our Animal Friends.

The first anthropological society, for  
the study of mankind considered with  
reference to the animal history of the  
race, was founded in London in 1868.

The common house fly, in the mouth  
of the scientist, becomes the Musca do-  
mestica.

## SHERIFF'S SALE.

BY VIRTUE OF AN EXECUTION ISSUED  
out of the Second Judicial District Court  
of the State of Nevada, in and for Washoe  
County, wherein Mrs. C. Kenyon is plaintiff  
and C. M. Willey is defendant, an order of  
judgment rendered on the 12th day of February,  
A. D. 1897, for the sum of \$301.58 in United  
States gold coin, besides costs and charges,  
has been duly levied upon all the right, title,  
claim and interest of the said defendant, in  
and to that certain real property situated,  
lying and being in the new town of Wades-  
worth, county of Washoe, State of Nevada,  
and described as follows: A portion of lot  
nine (9) in block two (2) of said new town  
of Wadesworth, county of Washoe, State of  
Nevada, being the 1/2 feet front of the west  
portion of said lot, extending back the same  
width twenty-four (24) feet, and from this  
point, twelve and a half feet wide of the same  
western portion, and extending to back of  
lot sixty-six feet.

Public notice is hereby given that I will on  
the 12th day of March, A. D. 1897, at 1 o'clock  
P. M. of said day, in front of the courthouse  
door of the county of Washoe, sell at public  
auction, for United States gold coin, to the  
highest and best bidder, all the right, title,  
claim and interest that the said defendant  
now has in said property, and all the right,  
title, claim and interest that the said defen-  
dant had in said property on the 20th day of Oc-  
tober, A. D. 1896, the same being the date on  
which a writ of attachment issued in said  
court and cause, was duly levied upon said  
property, of, in and to the above-described  
property, so much thereof as may be neces-  
sary to raise sufficient money to satisfy  
said judgment, with interest, costs and ac-  
cruing costs.  
W. H. McILROY,  
Sheriff.

Dated February 20, 1897.

**SUMMONS**  
IN THE SECOND JUDICIAL DISTRICT  
Court of the State of Nevada, in and for  
Washoe County. The State of Nevada, com-  
es to D. H. Webster, greeting: You are hereby  
required to appear in an action commenced  
against you by Mrs. Elizabeth J. Webster,  
as plaintiff, in the Second Judicial District  
Court of the State of Nevada, in and for the  
County of Washoe, and answer the com-  
plaint therein within ten days after the ser-  
vice on you of this summons (exclusive of the  
day of service), is served in said county, or  
within said District, and in all other cases  
forty days; or judgment by default will be  
taken against you according to the prayer  
of said complaint. This action is brought to  
recover by plaintiff a divorce from the bonds  
of matrimony existing between her and the  
defendant, D. H. Webster, upon the grounds  
of your willful desertion of her as your wife  
for the period of one year and more, to-wit:  
since the 15th day of May 1895. And also on  
the ground of your neglect for the period  
of one year and more to-wit: for four years  
last past, to provide her with the necessary  
comforts of life, and that such neglect was  
not the result of poverty or your past which  
you could not have avoided with ordinary  
industry. And said complaint also alleges  
that you and she contracted at Esmeralda,  
in Modoc County in the State of California,  
July 31, 1891; that plaintiff has resided in  
Washoe County, State of Nevada, 18 months  
last past; that you and plaintiff have no  
children and no community property. All  
of which will more fully appear from the  
complaint, which is on file in the office of the  
Clerk of said Court, at Reno, in said  
county, and to which you are especially re-  
ferred. And you are further notified that  
if you fail to appear and answer said com-  
plaint, the said plaintiff will apply to the  
Court for the relief demanded, in her com-  
plaint, to-wit: a divorce from the bonds of  
matrimony.

In testimony whereof, I have hereunto set  
my hand at Reno this 20th day of January,  
A. D. 1897.  
THOS. E. HAYDON,  
Atty. for plaintiff.

**SUMMONS.**  
IN THE SECOND JUDICIAL DISTRICT  
Court of the State of Nevada, in and for  
Washoe County. The State of Nevada, com-  
es to Emeline Pion, Greeting: You are hereby  
required to appear in an action commenced  
against you as defendant by Frank Pion as  
plaintiff, in the Second Judicial District  
Court of the State of Nevada in and for the  
County of Washoe, and answer the com-  
plaint therein within ten days after the ser-  
vice on you of this summons (exclusive of the  
day of service), if served in said county, or  
twenty days if served out of said county,  
cases forty days; or judgment by default  
will be taken against you according to the  
prayer of said complaint. This action is  
brought to recover a decree of divorce, for-  
ever dissolving the bonds of matrimony now  
existing between you and said plaintiff, of, on  
the grounds of desertion and abandonment  
by you of said plaintiff for more than one  
year last past prior to the date hereof. All  
of which will more fully appear from the  
complaint which is on file in the office of the  
Clerk of said Court, at Reno, in said County,  
to which you are especially referred. And  
you are further notified that if you fail to  
appear and answer said complaint, the said  
plaintiff will apply to the Court for the re-  
lief demanded.  
In testimony whereof, I have hereunto set  
my hand, at Reno this 21st day of January,  
A. D. 1897.  
H. A. WALDO,  
Attorney for plaintiff.
